Vehicle Details

Renault T460 HGV 1/2015 - Onw

Instructions

- 1.) Unclip and remove the fuse box cover from the top of the dashboard.
- 2.) Remove the Two T20 Torx screws that secure the dashboard top trim panel located above the parking brake / heater controls, then using a trim tool carefully un-clip and remove the trim panel.
- 3.) Remove the T20 Torx screw from the top of the dashboard side panel that is positioned to the Left of the Two air-vents, then using the trim tool carefully un-clip and remove the side panel.
- 4.) Locate the bracket against the dashboard sub-structure on the left side of the dashboard, so the bracket is position directly to the left side of the upper air-vent.
- 5.) Drill two small 2mm pilot holes through the Two bracket holes into the dashboard sub-structure, then using the Two self-tapping screws provided secure the bracket firmly in position.
- 6.) Finally refit the dashboard side panel, top trim panel and the fuse box cover.
